

NEHA AJAY BHOYAR

📍 Nagpur, Maharashtra, India ✉ bhoayaraneha815@gmail.com 📞 9403718412 🌐 github.com/NehaBhojar15

SUMMARY

Dedicated and detail-oriented Computer Engineering student with an 8.85 CGPA, strong analytical and problem-solving skills, and hands-on experience in software development and database management. Serving as Class CR with proven leadership, communication, and team coordination abilities. Passionate about data analytics, AI/ML, and building efficient real-world solutions through technology.

PROJECT

E-Commerce Data Analysis Dashboard

github.com/NehaBhojar15/E-Commerce-Sales-Customer-Analytics-Dashboard

- E-Commerce Sales & Customer Analytics Dashboard.
- Developed an E-Commerce Analytics Dashboard using Python, SQL, and Power BI to analyze sales performance, customer behavior, and profit trends.
- Performed data cleaning and exploratory data analysis (EDA) using Pandas, NumPy, Matplotlib, and Seaborn to extract meaningful insights from raw datasets.
- Wrote SQL queries to analyze top customers, monthly revenue, category-wise sales, and overall business performance.
- Identified high-performing products and profitable business regions through trend analysis and data visualization techniques Improved reporting efficiency by organizing and transforming structured datasets for accurate business analysis and dashboard reporting.
- Integrated interactive filter and slicer features within Power BI dashboards, enabling users to segment sales and customer analytics by time periods, regions, and customer segments for tailored business insights.

Inventory Management System

Easy2it

- Developed an Inventory Management System using PHP and MySQL to manage stock records, supplier data, and product transactions.
- Analyzed inventory movement and product availability using SQL queries and generated inventory performance reports.
- Implemented data tracking features for stock monitoring, sales updates, and low inventory identification.
- Improved operational efficiency through structured database management and automated inventory record handling.

EXPERIENCE

- E-Commerce Sales & Customer Analytics Dashboard.
- Developed an E-Commerce Analytics Dashboard using Python, SQL, and Power BI to analyze sales performance, customer behavior, and profit trends.
- Performed data cleaning and exploratory data analysis (EDA) using Pandas, NumPy, Matplotlib, and Seaborn to extract meaningful insights from raw datasets.
- Wrote SQL queries to analyze top customers, monthly revenue, category-wise sales, and overall business performance.
- Identified high-performing products and profitable business regions through trend analysis and data visualization techniques Improved reporting efficiency by organizing and transforming structured datasets for accurate business analysis and dashboard reporting.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science & Engineering

G. H. Raisoni University • India • 2023 – 2027 • 8.8 / 10

School (10th Grade)

Bhavans Lloyds Vidhya Niketan, Wardha • Wardha • 2021

SKILL/S

Technical Skills

- Programming Languages: Python, SQL
- Data Analysis & Libraries: Pandas, NumPy, Matplotlib, Seaborn
- Data Visualization Tools: Power BI, Microsoft Excel
- Database Management: MySQL
- Analytical Skills: Data Cleaning, Exploratory Data Analysis (EDA), KPI Analysis, Dashboard Development, Data Visualization

Soft Skills:

- Problem Solving, Communication, Team Collaboration, Leadership.
- As a Class Representative Coordinated communication between students and faculty members.
- Managed academic updates and event coordination activities.
- Demonstrated leadership, teamwork, and organizational skills.
